Session 2 Module Map

Module learning outcomes	Content and activities	Where to locate on Learning Central	Indicative time commitment	Relationship to assessment
• Implement and evaluate machine learning methods to solve a given task • Explain the basic principles underlying common machine learning methods • Choose an appropriate machine learning method and data pre-processing strategy to address the needs of a given application setting • Reflect on the importance of data representation for the success of machine learning methods	In person lecture	See MyTimetable for time and location	1 hours	Class test
	Lecture slides and resources given in the slides	Content -> Session 2	1 hour	
	Chapter 2 of Hands-On Machine Learning with Scikit-Learn, Keras, and TensorFlow, 2nd Edition by Aurélien Géron	Electronic book via Library	4 hours	
	Download CMT307_lab2.ipynb and practice it in Colab	Content -> Session 2	2 hours	
	In person practical session	See MyTimetable for time and location	2 hours
