MSc Team Project: Module Map

1. Identify and implement solutions for a non-trivial technical problem working as part of a development team, employing appropriate project and risk management skills.
2. Use appropriate processes and apply relevant principles and practices from the discipline.
3. Select and apply appropriate best practice, software/hardware theory and technology to solving specific problems, from investigating and defining the problem to selecting appropriate techniques and validation methods in developing solutions.
4. Critically evaluate solutions and findings resulting from the project against the stated objectives and present them and the resulting deliverables in an appropriate professional manner.
5. Consider and apply appropriate legal, social, ethical and professional frameworks that apply to the given project.

Module Map

Module learning outcomes	**Week 1: content and activities**	**Where to locate on Learning Central**	**Indicative time commitment**
1,2	**Individual use of Git intro to projects**	Learning Materials > Session 1	**2h**
	Lab for individual Git	Learning Materials > Session 1	**3h**
	Individual and Study Git, agile worksheets, Waterfall worksheets	Learning Materials > Session 1 Git, agile worksheets	**17h**
Module learning outcomes	**Week 2: content and activities**	**Where to locate on Learning Central**	**Indicative time commitment**

1,2	**Paired Git + Cath Elmer short talk**	Learning Materials > Session 2	**1h**
	Lab for Paired Git	Learning Materials > Session 2	**2h**
	Project pitches. / More info about Exam board project.	N/A	**3h**
	Teams putting together pitches / individual practice on Git	N/A	**15h**
Module learning outcomes	**Week 3: content and activities**	**Where to locate on Learning Central**	**Indicative time commitment**
1-5	**Lego Workshop**	Learning Materials > Session 2	**3h**
	Project kick off team meetings	N/A	**3h**
	Team work	N/A	**15h**
Module learning outcomes	**Week 4-5: content and activities**	**Where to locate on Learning Central**	**Indicative time commitment**
1-5	**Reviews / delivery**	N/A	**3h**
	Teamwork	N/A	**20h**

Module learning outcomes	Week 6: content and activities	Where to locate on Learning Central	Indicative time commitment
1-5	**Delivery**	N/A	**3h**
	Teamwork	N/A	**20h**
	Report writing session	Assessment > Report	**1h**
Module learning outcomes	**Week 7: content and activities**	**Where to locate on Learning Central**	**Indicative time commitment**
	Report drop-in session	N/A	**4h**
	Reports and assessments	Assessment > Report	**20h**
Module learning outcomes	**Week 8: content and activities**	**Where to locate on Learning Central**	**Indicative time commitment**
1-5	**Report writing and submission**	Assessment > Report	**25h**
